### Description

#### About This Product - Fluidmaster Bathroom 1/2 in. x 1/2 in. 20 in. Faucet Supply Connector B4F20

Here the Fluidmaster B4F20 Braided Stainless Steel Faucet Connector is the perfect choice to upgrade and replace your old or faulty faucet supply line. Offering a 20 length and fitting 1/2 FIP x 1/2 FIP fittings. Fluidmaster faucet water supply connectors are built to last. Constructed with a tough polymer core covered with braided stainless steel wire. Built to last these connectors come with a 5 year warranty. They won't kink or crease even in the tightest install spaces. Featuring exceptional flexibility for fast and easy installation with easy to grip and durable nickel-plated brass hex nuts and extra-long and crimped stainless ferrules. Meeting all code requirements for flexible water connectors. Trusted by homeowners and pros with a proven track record of ease of use and durability. For the top choice choose Fluidmaster to replace your water supply line and protect your home.
