Description

About This Product - Leviton Decora 15 Amp Tamper Resistant Duplex Outlet with 30W USB-C Power Delivery Charger, Black (1-Pack) T5635-E

Charge for Minutes, Enjoy for Hours! Leviton's USB Wall Outlet with 30W Dual Type-C/ C Power Delivery Charger is the most advanced USB wall outlet charger on the market offering up to 30-Watts of charging power on a single port. Power Delivery, a state-of-the-art charging technology, provides a higher power level so you can enjoy up to 2X faster charging of phones, tablets, watches and more. Engineered with advanced overcurrent protection and an internal thermoregulator to help ensure the safety of

your electronics, Leviton's USB Wall Outlet with 30W Dual Type-C/C Power Delivery Charger is the ideal upgrade for home offices or anywhere you choose to charge. The device offers adapter-free charging which creates a clutter-free, modern aesthetic and leaves the outlets free for additional power needs. Use with a Decora wall plate or Decora Plus screwless wall plate (sold separately) to complement any decor.

Highlights

- The most advanced USB electrical outlet charger on the market with up to 2X the charging power with PD-enabled devices. Also compatible with non-PD devices
- Up to 30W charge on a single port when connected to a PD-enabled device, up to 15W charge per port (30W total) when both USB ports are in use
- Maximum charging outputs: 5V/3A, 9V/3A, 15V/2A, with a maximum power output of 30W
- Smart chip recognizes and optimizes the charging requirements of individual devices
- Overcurrent protection helps protect the electronics from receiving too much power, which can damage the device
- Internal thermoregulator prevents the electronics from overheating
- Tamper-resistant outlets block access by most non-rated/foreign objects to help keep children safe
- Compatible with USB 3.1, 3.0, 2.0, 1.1 devices
- For new construction and retrofit installations, an extra deep electrical box (20 cu. in.) or wall box extender is required
- Use with Decora wall plate or Decora Plus screwless wall plate (sold separately)
- No data transfer capability

2X the Charging Power!

USB Type-C with Power Delivery is the most advanced, powerful in-wall charger on the market, capable of charging up to 30W on a single port! Perfect for power hungry laptops, tablets and smartphones.

30W
Charge on
Single Port

About Type-C

- Small size makes it easier to support thinner electronic devices
- More power to charge larger devices like laptops and other equipment with higher power requirements
- Industry adoption is making it the new standard. Works across the most common Operating Systems including iOS, Android, Google, Windows, and others
- Reversible connector can be easily inserted in either direction
- Backward compatible with legacy ports like Type-A when using an adapter

About Power Delivery

This technology allows your device to take on more power in a shorter amount of time, resulting in ultra-fast charging. It's ideal for charging tablets, laptops, smartphones and other devices that require more power.

More Watts = More Power = Faster Charging

With technology evolving daily, it's important to choose a USB Charger that can keep up with the pace.

Your smartphone, tablet, laptop or any electronic device requires a certain amount of power to charge. Like light bulbs, the power is measured in wattage (watts). So, the more watts you have, the more power is flowing. The more power flowing equals faster charging.

Superior Charging Power

- Most powerful in-wall charger on the market
- Single port charging up to 30W

Smart and Slim

- Smart chip recognizes the device and delivers power based on the devices charging requirements

Superior Charging Power

- Overcurrent protection helps protect devices from receiving too much power which can damage them

Specifications

Amperage (A): 15 A

Color Family: Black

Color/Finish: Black

Commercial/Residential: Commercial,Residential

Configuration: USB-C

Device Style Type: Outlet w/o Wall Plate

Durability: Tamper Resistant

Electrical Features: Receptacle Combination

Grounding: Grounded

Included: No Additional Items Included

Indoor/Outdoor: Indoor

Maximum Amperage (A): 15 A

Mounting Type: In-Wall

NEMA Configuration: NEMA 5

Number of Poles: 0

Number of Ports: 2

Number of Receptacles: 2

Outlet Configuration: Duplex

Outlet Location: Wall

Outlet Material: Thermoplastic

Outlet Type: Not Protected

Package Quantity: 1

Plug Configuration: 5-15

Rating: Tamper Resistant

Receptacle Configuration: 5-15

Returnable: 90-Day

Voltage: 125 volt

Voltage (V): 125 V

Wall Plate Configuration: 1-Decorator / Rocker / 1-Duplex

Wire Connection Location: Back,Side

Wire Connection Type: Screw Terminal

Certifications and Listings: CSA Listed

Manufacturer Warranty: 5 Year Limited

Outlet Depth (in.): 1.76

Outlet Height (in.): 4.04

Outlet Width (in.): 1.73
