LOT 237 - [✓] [MSRP: \$118.00] Orbit B-hyve 6-Zone Indoor/Outdoor Smart Sprinkler Controller, Works with Amazon Alexa

Description

About This Product - Orbit B-hyve 6-Zone Indoor/Outdoor Smart Sprinkler Controller, Works with Amazon Alexa

Create a customized sprinkler schedule in minutes with the Orbit Wi-Fi sprinkler timer. With just a few user inputs, it automatically adjusts watering for you each month based on your lawn or garden needs, saving you water and money. A smart device doubles as a remote control, so you can activate your sprinklers or adjust the schedule from anywhere. Orbit's Wi-Fi timer provides complete control at the timer with its revolutionary dial and large LCD display. The sprinkler timer will continue to water on the stored schedule if you lose Wi-Fi connectivity, or you can make changes right at the

timer. Familiar easy-to-set technology makes changing your timer programming a breeze even without Wi-Fi.

Highlights

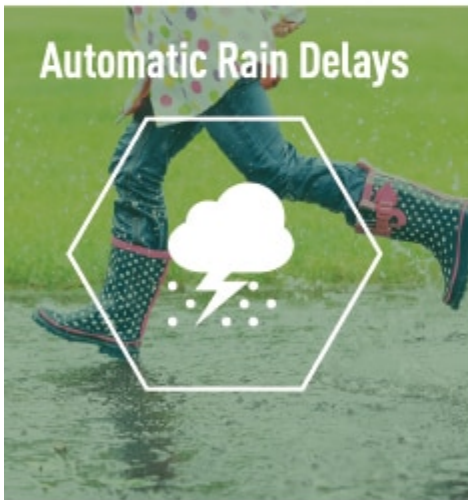

- **ULTIMATE WIFI AND TIMER CONTROL:** The B-hyve app is fully functional for Android, iOS or web devices and gives you control wherever you need it. Program your timer on the app, at the timer, or let the weather-based software create a program for you
- **SMART WATERING:** Weather Sense technology provides watering based on site conditions such as slope, soil type, sun/shade, historical ET and live weather feeds. It automatically adjusts your controller to deliver the right amount of water to your plants
- **EASY TO INSTALL AND USE:** Utilize the swing panel for easy access to the angled wiring terminals, which makes wiring simple and convenient and the plug-and-go line cord that can also be cut for hardwired applications
- **CERTIFIED TO SAVE WATER AND MONEY:** B-hyve is EPA WaterSense approved and certified, ensuring it will save you water and energy. This can also make your B-hyve timer eligible for local rebates, which can save up to 100% of the cost on your timer
- **DURABILITY AND SECURITY:** The Orbit B-hyve Wi-Fi sprinkler timer comes in a weather-resistant case, allowing you to mount your timer indoors or outdoors without risk of weather damage and a locking cabinet that keeps your timer safe from harm
- **VOICE CONTROL:** Works with Amazon Alexa for voice control (Alexa device sold separately). Contact us for a quick guide on how you can use your B-hyve with Alexa to control your watering with a simple phrase
- **WATER SAVINGS -** Integrate your B-hyve timer with use of Catch Cups (Orbit 26251) to save up to 50% more water than with traditional controllers. Optimize the way you water, so you can keep everything lush and green without breaking the bank
- **USE WITH 110V ONLY:** Compatible and compliant only with North American electrical outlets. International versions are available for markets outside North America
- **APPLICATIONS:** Only for use with irrigation systems
- **VARIATIONS:** Comes in 6- and 12-station versions. If you need a different station count than either of those, there are several different B-hyve options suited to fit your needs

Be Connected. Be Green. Be Smart.

Orbit has been the #1 choice of homeowners* in retail irrigation and watering for over 40 years.
