### Description

#### About This Product - Orbit B-hyve XD Bluetooth 4-Outlet Hose Watering Timer Sprinkler Timer

The Orbit B-Hyve XD Bluetooth 4 Outlet Hose Faucet Timer allows you to turn you hose faucet into a programmed sprinkler system in minutes. Smart technology gives you control over hose faucet watering from your Bluetooth device. No more dead plants because you forgot to water them. No more soggy lawns because you forgot to turn the water off. Install a hose faucet timer to any standard outdoor hose faucet and program it to water at your convenience. Built with high quality materials and water-resistant construction, XD can withstand extreme weather. With a large digital display,

programming is fast and easy: program directly on the device, locally via Bluetooth, or remotely through Wi-Fi. For Wi-Fi access, pair with the B-Hyve 2.0 hub (sold separately). One-touch watering is available on the timer so you can water without the use of a phone. Add on additional smart valves to create multiple watering zones in your yard - these timers will network together to boost the signal strength without the use of repeaters.
