## **Description**

## About This Product - 75-Watt Equivalent A19 Smart LED Color Changing Light Bulb with Bluetooth (3-Pack)

This Philips Hue White and color ambiance A19 E26 LED smart bulb offers millions of shades of warm-to-cool white and color changing light to transform your home decor and the way you feel. These 75-Watt equivalent smart RGB lights feature Bluetooth capability for instant light control in 1 room and offer up to 1100 Lumens of brightness. Bluetooth makes it easy to get started with Philips Hue. Simply screw in the bulbs, download the Hue app and start enjoying the convenience of smart lighting immediately. They can dim, brighten and set the mood right out of the box. With

Bluetooth you can control up to 10-lights in a single room. It's easy to have the right light for routines throughout the day with Hue light scenes. Or create the ultimate mood lighting with dynamic light effects that show subtle changes in color or brightness that you can customize in the app. Looking for smart bulbs that work with Alexa and Google Assistant. It's easy to set up voice control with the Hue app and use simple voice commands to
