Description

About This Product - Vigoro 10 ft. L x 2.7 in. H Decorative Faux Stone Dark Gray Plastic No-Dig Landscape Edging Kit

The Vigoro Decorative Faux Stone No-Dig Landscape Edging Kit adds an rustic finish to any gardening or landscaping project. The dark gray ornamental edging is flexible enough to use as a tree ring and the patented No-Dig L-shaped design eliminates damage from digging into tree and plant roots. An overlapping post system creates seamless borders, eliminating the need for connector pieces. Unlike other decorative fence-style edging products, the 2.7 in. H edging has a built-in retaining section designed to hold back bedding materials and can be installed on top of landscape

fabric to prevent weed growth. Simply clear the area of debris and align the edging to the shape of the bed. Slide edging pieces together to create a continuous border around your installation area. To secure the installation, use a mallet to pound the spikes (included) into the ground through the pre-drilled hole in each end tab of the edging. The edging kit includes (8) 15 in. W x 2.7 in. H edging pieces and (16) 8 in. anchoring spikes to complete a 10 ft. installation.

Highlights

- Simple installation, no digging required - suitable for all soil types
- Rustic stone design complements any flower garden
- Flexible spines conform to curved border designs
- Overlapping post system stabilizes joints without additional connector pieces to create seamless borders
- Project kit includes (8) pieces of edging and (16) anchoring spikes
