LOT 18 - [MSRP: \$174.96] Wambam Tradition Nantucket No-Dig Permanent 4 ft. x 6 ft. Vinyl Picket Fence Panel with Post and Anchor Kit

Description

Now you can have the picket fence you've always dreamed of and without the back-breaking work of digging holes and pouring concrete. Virtually maintenance free and backed by a lifetime warranty this classic picket fence will look new for years to come. The best part of it is this fence is ease of installation. Forget digging deep holes or pouring concrete this unique system takes a lot of the time and labor out of installing your fence. You install the fence post much like chain link has been installed for the past 50-years by first driving a steel 1-5/8 in. galvanized pipe anchor (included) deep into the ground with a sledge hammer or post pounder. If your pipe is slightly crooked after installation you can utilize our patented leveling donuts (included) to adjust into level to compensate accordingly. Once you sleeve your vinyl post over the pipe it's straight and level. The end result is a sturdy and strong permanent fence that will last decades. For more detail see our installation guides.
